Anti-Face-Covering Act

As part of the interdependence and social integration package, the Austrian government passed a law banning the covering of the face, which came into effect on 1st October 2017. As per the law, anyone who covers his/her face in public places, using the burqa or niqab for example, is subject to an administrative penalty of up to 150 euros, which can be imposed by police personnel. Covering your hair however, using a veil or ghutra for example, is still permitted.
