- [360° BAR](#)
- [die Wilderin](#)
- [Ottoburg](#)
- [Höttinger Alm](#)

Our top tip:

The [Innsbruck Card](#) offers free entry to the most important sights.

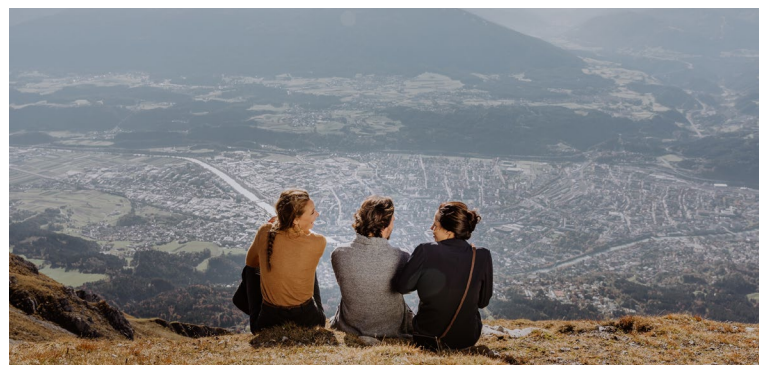

Nestled amidst majestic peaks, the [Capital of the Alps](#) offers a unique combination of nature, history, and culture - concentrated over a remarkably small area. In no other European city of a comparable size are the hustle and bustle of the city and the quiet solitude of the high mountains so close together as they are in Innsbruck. You can enjoy a quick espresso in one of the street cafés in the Old Town and, 20 minutes later, you're at an altitude of 2,300 metres. The [Hungerburg Funicular](#) (designed by Zaha Hadid) and the [Nordkette cable car](#) take you to Austria's largest nature park, the Karwendel Nature Park.

Sightseeing classics and insider tips: the '[Walks to Explore](#)' take you on a self-guided journey through the city.

The [Innsbruck region](#) is much more than its city alone. It also includes 40 towns and villages that fulfil your every want and need. You can stay in the alpine countryside, in an idyllic village, in the city centre or at 2,000 metres above sea level. On the Mieming Plateau west of Innsbruck, for example. This sunny area lies on a high mountain plateau with green alpine meadows and secluded groves. It is ideal for golf, leisurely cycling, walking and cross-country skiing.
